

## City of Loma Linda Official Report

Floyd Petersen, Mayor  
Stan Brauer, Mayor pro tempore  
Robert Christman, Councilmember  
Robert Ziprick, Councilmember  
Charles Umeda, Councilmember

COUNCIL AGENDA: March 14, 2006

TO: City Council

VIA: Dennis R. Halloway, City Manager

FROM: T. Jarb Thaipejr, Public Works Director/City Engineer *T.J.T.*

SUBJECT: Establish Ad Hoc Committee for Redlands Boulevard Median Design.

### **RECOMMENDATION:**

It is recommended that the City Council establish an ad hoc committee of eleven (11) members for a term of one year for the purpose of designing and developing a median on Redlands Boulevard from Mountain View Avenue to the westerly City limit.

### **BACKGROUND:**

In January, 2005 the City Council awarded a contract for the professional design of a median on Redlands Boulevard. An element of the design process is to seek community input as well as outreach to garner consensus and support for the project. Ad hoc committees for special projects have been successfully utilized in the past to accomplish this goal.

### **ANALYSIS:**

This committee should include members of the general public, business community and parks and beautification committee. Staff is recommending 4 business representatives from Redlands Boulevard, 3 from the Chamber of Commerce, 2 from the Parks and Beautification committee and 2 representatives from the community at large, for a total of 11 members. This should provide a good cross section of people affected by the project. Additionally, a wide range of experience would benefit this committee.
